APPENDIX III

(Please see answer to Question No. 439)

"A serious calamity that has overtaken the Taluk is the destruction of thousands of acres of agricultural land by sea erosion. This has proved to be a source of perennial loss to the cultivators of this place and we have bitter memories of many families completely ruined due to all their lands concentrated on the sea-shore being washed away by erosion. During the Diwanship of Mr. Herbert a definite assurance was given to the people of this Taluk that protective measures should be undertaken to prevent further encroachment by putting groynes which have found to be effective in Chellanom. We confidently look forward for the accomplishment of this much desired scheme ere long and which would evoke gratitude of the people of this Taluk".
